

TAMPERED TEST DOCUMENT - NEGATIVE TEST CASE

FOR TESTING SECURITY VERIFICATION & DIGITAL SIGNATURE REJECTION

Intentionally modified bytes post-signing to trigger Tampering Flag

Mismatched Entity: Shell Enterprise Fake Ltd

Invalid PAN: XX99999999 (Invalid Checksum)

Status: Injected byte sequences altering original document hash.

SIGNATURE DIGEST MISMATCH — TAMPERING INTENTIONALLY SIMULATED

The backend cryptographic verifier detects altered hash vs signed attribute.

Expected Result in Portal: Signature Invalid — Tampering Detected (Red Alert Banner).
